Fulltext Sources Online

"I think *Fulltext Sources Online* is a great product. It's easy-to-use and allows you to quickly determine which electronic databases provide full-text access to various journals and magazines. My library staff and I use the product all of the time to quickly locate articles for our attorneys. I highly recommend **FSO** to other law firm librarians."

— Glenn Ross
Director of Library Services
Holland & Knight LLP

www.infotoday.com

Fulltext Sources Online ... a Directory of Periodicals

"I've found **FSO** to be very useful and have subscribed for eons. It helps me to identify which aggregator carries a particular source. **FSO** has been especially helpful to me for this purpose over the years. I currently subscribe to both the online and print edition"

—Amelia Kassel
President, MarketingBase

Fulltext Sources Online (FSO) is a directory of periodicals accessible online in full text through 30 aggregators and content providers. Published biannually in January and July, **FSO** lists more than 46,000 newspapers, journals, magazines, newsletters, news wires, and transcripts. Each issue is complete and replaces previous issues.

Each entry lists the aggregators and databases that provide the title online in full text. Coverage dates, frequencies, and lag times of titles appearing online are included, as well as ISSNs, publishers' websites, and document types. Free archives, selected coverage, and open access journals are indicated. Subject, geographic, and language indexes are also provided.

Aggregator Products in FSO:

- BioOne
- GENIOS
- NNI (Nikkei)
- BurrellesLuce
- HeinOnline
- Ovid
- DataStar
- IBFD
- PressEDD
- Dialog
- InfoTrac

Also Available Online
at www.fso-online.com

FSO is available on the internet as FSO Online and updated weekly. URLs are hyperlinked, and searches can be limited by aggregator, subject, language, and geographic location.

The FSO database is also available for license; FSOe subscribers receive quarterly updates of the file by email for easy integration into any network system.
